**Progress Measures KS2**

This is the average of all the pupils' subject progress scores. A positive score, above zero, indicates the group of pupils has made above average progress compared to pupils with similar earlier attainment. A negative score, below zero, indicates they have made below average progress.

\*\*School scores should be interpreted alongside their associated confidence intervals.

If the lower bound of the school's confidence interval is greater than zero it can be interpreted as meaning that the school has achieved greater than average progress compared to pupils with similar starting points nationally. Similarly, if the upper bound is below zero, then the school has made less than average progress. Where a confidence interval overlaps zero, this means that the school's progress score is not significantly different from the national average.
